EMBRACE UNCERTAINTY, CREATE OPPORTUNITY

An Interactive Keynote Experience

Smart and talented people can easily lose focus and even doubt their value when the future becomes unclear.

EMBRACE UNCERTAINTY is for leaders and change makers looking to own their future and who possess a deep desire to be their best in a world drowning in uncertainty and constant change.

LIES WE TELL OURSELVES

in our Confrontation with Uncertainty

LIE #1: Uncertainty is simply something we have to deal with.

LIE #2: I have little or no control in the face of uncertainty and constant change.

LIE #3: I should be able to figure out how to navigate uncertainty on my own.

The lies we tell ourselves halt our ability to move forward. When we let the grip of uncertainty paralyze us, we question our value and wonder what we have to contribute. We become afraid of not being good enough for what the future holds.

The unintended loss: we don't even realize we have allowed others to determine our worth.
